# The Cocktail Bench

In 1951, Finn Juhl designed the Cocktail Bench for Baker Furniture in the US. The bench takes inspiration from the lavish cocktail parties of the 1950s in the US, representing the booming economy of the time and the splendour that dominated society. Crafted from solid walnut or oak, the bench exhibits an intricate, detailed design, with beautifully rounded corners and slender angles uniting to form a timeless aesthetic. An optional cushion is available to order.

## Product Info

**Name** The Coctail Bench

**Categori** Benches

**Design** Finn Juhl

**Year** 1951

**Relaunched** 2009

**Materials** Solid oak or walnut
