The Ross Coffee Table

Finn Juhl | 1948

The Ross Coffee Table

The Ross Coffee Table was particularly unconventional at the time it was designed, yet today, the design is extremely modern with its delicate steel frame, organically shaped top, and featuring a steel inlay with a built-in vase. The table is manufactured with a stainless steel frame and a wooden tabletop in walnut, featuring a steel inlay. Furthermore, the table is available with and without a vase in stainless steel.
